Dear Tom

15 November 2007

As I plan my 2008 odyssey and other personal projects, I see extended periods of time that I will be totally out of touch with USSVI and its activities. This, I consider an unacceptable situation. I realize that USSVI will not go out of business without my participation but the organization does deserve the full attention of its Board of Directors. So with regret, I would request you accept my resignation as USSVI National Senior Vice Commander to be effective on 1 December 2007. You and the members of the Board of Directors can expect full cooperation from me for a successful and speedy turnover to my successor.

Fraternally

Jim Foote
